

## EPiC Online produces amazing IELTS results

"Our main objective is to help our students achieve their target scores in their university entry tests. In order to ensure this, EPiC Online was introduced as part of the new IELTS preparation course. The first batch of student in this course was assigned customized one-to-one speaking skills coaching sessions by the EPiC Online team. This helped the students to further improve their English language skills and simultaneously gain confidence in using the language on a daily basis. **And their IELTS results are amazing!** We are definitely encouraging all our students to sign up for the sessions and get that extra edge in their exam preparation."
